Personal Statement

UI/UX Designer with a strong background in social innovation and user-centered design. Driven by a desire to walk in users' shoes, I create accessible, meaningful digital experiences. Experienced in volunteering, teamwork, and leading creative initiatives across universities, tech teams, and NGOs.

Work Experience

Dec 2023 - Today

CEO & UI/UX Designer – LifePulse

- Led UX research, wireframing, prototyping, and UI design for mobile and admin systems.
- Designed and launched a nationwide volunteering & blood-donation platform (4.9+ rating on app stores).

Jul 2018 – March 2025

IT Technician – Aristotle University of Thessaloniki (AUTH)

- Contributed to UX evaluations and redesigns of university web systems with HCI researchers and faculty.
- Assessed and improved UX of internal tools and published 30+ manuals for digital services.

Nov 202 – Jul 2023

Experience Support – European University Foundation (EUF)

- Analyzed user flows for student mobility platforms and supported UX improvements in international teams.

Education

Sep 2022 – March 2025

MSc in Interactive Technologies (AUTH)

- Thesis: User Experience Design for Volunteer Applications. GPA: 9.49/10

Feb 2025 (Winter School)

Digital Healthcare Entrepreneurship School (Karlsruhe Institute of Technology)

- Focused on UX in healthcare technologies and designed an app to counter medical illiteracy in multicultural countries.

Aug 2024 (Summer School)

Project Management (University of Southern Denmark)

- Worked with an international team to design a real-world project concept – AirbnbBike, a bike-rental service.

Oct 2016 – Feb 2022

BSc in Physics (AUTH)

- Thesis: Body detection in indoor and outdoor spaces via Bluetooth Low Energy and WiFi, Grade: 10/10
